Tour to Matsumoto Castle and Narai Post Town for Experiencing Old Japan

Once you arrive at Matsumoto Castle and Narai Post Town, which are the popular destinations for foreign tourists, you would slip back in time of 200 years ago. Enjoy strolling through these old towns as if you are an ancient traveller. It is amazing to see a dragon painted on a ceiling of a historical temple in Narai Post Town. The highlight of this tour is experiencing the warm and rustic Irori. It is a traditional Japanese hearth in the middle of Japanese living room. Enjoy some sweets, green tea, and the locally made pickles while sitting around the fire. Warm soba noodles, one of the local dishes of this area, will be served for lunch.
